

### Half-shell kits: Makeover of your gun

With effect from today, we enlarge the range of colours for our gun family ST-2300, ST-2600, and ST-2700. You can choose from green, blue, red, and yellow!

By means of our half-shell kits, it is possible to adapt the guns individually to your company's colour or to the one of your customers. By using different colours, the affiliation to a certain unit (e.g. rental business), user, or application is possible in an easy way, too.

Moreover, the guns can be used for allocation to different areas within the scope of the HACCP directive. In this respect, we offer further interesting products in different colours for lance clips, nozzle protectors, and plugs for rotating nozzles in Chapter 13, HACCP. This product range now features coloured insulated handles for lances with a length of 900 mm.

**What would you like to mark in your colour? Select your appropriate half-shell kit, here!**

If you like to have your corporate logo on the logo plate, please follow the instructions given on the following page: "Design your own Suttner gun".

Kit contains half shells, logo plate, trigger and trigger lock

## HACCP – Colour Coding Concept

## R+M/Suttner's hygienic colour-coding concept

Suttner's color-coded concept provides a pragmatic approach to the food sector's challenges of ensuring efficient hygienic cleaning and a visibly safe physical environment in:

- » Food and beverage manufacturing facilities and throughout their supply chain
- » Professional kitchens and restaurants
- » Food-related areas of supermarkets and shops

## Durable and effective accessories

All of R+M/Suttner's food-industry specific 'high hygiene' tools are made of 1935/2004/EC compliant materials and materials which meet the requirements of EC regulation 10/2011/EC regarding food contact materials and can be washed at high temperatures to eliminate germs and bacteria. All equipment is durable, fully molded to guarantee easy cleaning, and capable of maintaining a long-lasting attractive appearance. The effective tool range includes spray and foam guns, spray lances, nozzle protectors, foam lances and hoses in up to four color-code options.
